

Full-Stack web application developer

Position: Full time

Location: Cambridge (UK)

Salary: Dependent on experience

Benefits: Company Pension, Growth opportunities, Flexible working, Training, Positive people, Can-do workplace, Proximity to transport hubs and city.

Bubble are looking for a talented full-stack web application developer who can demonstrate experience of working with high performance and scalable enterprise web applications.

This is a great opportunity for the right person and you'll be joining the business at an exciting time, as we deliver the next generation of our world-class enterprise software.

If you're keen to join a growing company with a culture that is dynamic, forward-looking, and technologically advanced, then please get in touch. The core application development team is located in our central Cambridge office, (but the role can be based in Cambridge or London, or a mix of the two).

- The security of an established company - that has the mindset of a start-up,
- A true voice at the table,
- The opportunity to deploy and develop a wide range of skills,
- Working with leading edge technology.

Technical experience

We are looking for somebody who understands the principles of great design and quality software development to create secure, efficient and reusable solutions. You need to enjoy the dynamics of an agile environment, and not be fazed by occasional deadlines.

Primary skills

- JavaScript (ES6+)
- AngularJS (or experience with a similar Front-end framework)
- Python
- Django (ideally Django REST framework)

Other relevant experience

- HTML5 / CSS / SASS
- UI/UX design
- Build tools (Webpack, Parcel)
- Unit and E2E Testing (Karma, Jasmine, Protractor)
- RESTful API consumption
- Postgres
- Docker and Kubernetes
- Experience of working with code repositories (e.g. GIT) and bug tracking tools (e.g. Jira)

Ideally you will be doing this all on-site. However, we have regular Work-From-Home-Wednesdays and are open to an element of flexibility for the right candidate.

Interested?

Please e-mail a CV, or contact us, using the following details:
recruitment@bubblegroup.com

Important notes:

- We will acknowledge role-related questions, communications, and candidate submissions.
- Applicants who pass our initial assessment will be invited to interview.
